

FAA Safety Team presents:

# **An introduction to Basic Acro and Emergency Maneuver Training**

Find out how easy it is to start Acro flying and build self-confidence with Emergency Maneuver Training. This is your invitation! Pilots at all levels will benefit from this program with an emphasis on the experienced pilot who wants to know more about sensing a potential Loss Of Control and how best to fly their plane if something does go wrong. Ron will guide you through spreading your wings to safely enjoy some EMT and /or some ACRO training.

And we'll start off with a special look at what might have gone wrong that lead to the recent tragedy when two Torrance-based planes collided off the Palos Verdes Peninsula. Ron Berinstein, an AGI and FAA FAASTeam Representative who flies aerobatics in a Super Decathlon out of Santa Paula and is a recipient of the FAA WINGS Master Pilot award is our presenter.

Refreshments will be served!

**Directions:** Main meeting room at the General Aviation Center

**A message from the National FAASTeam Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
